

Compliance Challenge

Awarded to the team that responds best to a challenge testing their understanding of compliance requirements and their ability to apply and resolve them in practice.

Sponsored by:

"The BHBIA's Ethics & Compliance Committee is delighted to support the biennial BOBI Compliance Challenge. We are keen to encourage, recognise, and reward excellence in compliance, so we are delighted to offer the chance to take part in a BOBI Award that celebrates outstanding knowledge in this area and a practical approach to applying it to healthcare business insights."

Winning Entry:

Adrian Faulkner
Techspert

Supporting member:
Ryan Chapa, Techspert

Winners' Statement

"Taking part in the compliance challenge expanded our exposure to less frequent compliance scenarios and highlighted how multi-faceted compliance is. It gave us a practical way to test ourselves, validate our approach, and strengthen confidence in applying requirements across situations."

The judges said:

"This entry impressed the judges with its consistent depth, accuracy and practical application of compliance knowledge across the challenges. The submission stood out for its highly structured, business-friendly frameworks, clearly demonstrating how to assess whether a project could proceed.

Judges particularly valued the clarity of the operational detail and the strong alignment with BHBIA guidance throughout. The responses showed clear real-world feasibility, addressing key areas such as data provenance, transparency, profiling risks, safeguarding and robust consent design with confidence and precision.

Overall, this was a highly credible and well-executed entry that showcased a strong standard of compliance expertise."
